

Track generation standards

The purpose of this document is to define the way mandatory tracks should be generated, in an attempt to make inter-consortia tracks at least a bit more comparable.

RNA-Seq

- Signal track (unstranded): TODO
- Signal track (forward): TODO
- Signal track (reverse): TODO
- RPKM: See proposal [here](#).

Bisulfite-Seq

- See proposal [here](#).

ChIP-Seq

- Signal: TODO
- Peak Calls: TODO
